

Courtenay Medical sincerely welcomes Dr Javier Stroud and his allocated City GPs patients.

What can you expect from Courtenay Medical and Dr Javier Stroud?

We are a team that works well together and responds sensibly to change. I am proud of how everyone at Courtenay Medical has embraced Dr Javier Stroud and this challenge in such a short time.

Monday the 4<sup>th</sup> of March was the first day of transition for our “blended family”. During this first stage there will be no change to Courtenay Medical and City GPs fees, website and ManageMyHealth. There are legitimate privacy, computer and legal reasons why this must happen.

Ultimately City GP patients will migrate to a single Courtenay Medical platform. Our team will ensure this transition process is professional and patient- centred.

You can trust us to do this well.

I will write again soon.

Dr Dave Pickett

Director Courtenay Medical and GP
